Daily Dose Pick: Zenith

2:01 pm Friday Dec 17, 2010 by Shana Nys Dambrot

A post-apocalyptic, paranoid, Baroque fantasy, *Zenith* is set in a future in which geneticists have eradicated unhappiness, giving rise to a black market in pain-inducing drugs — and one man's self-destructive quest to break through.

A visually stunning art-house *Blade Runner* for a generation in thrall to sex, violence, conspiracy, and urban tribalism, the film fits its "retro-futuristic steampunk thriller" tag-line perfectly. Its many plot twists innovatively even cross over into social media, drawing viewers into the mystery at its heart with engagement far beyond the film itself.
